

# know your CITY

The world is urbanizing rapidly.

**3** million people move to cities every week

Cities are where four major kinds of people are most to be found: the next generation of young people, the most unreached peoples who have migrated, the culture shapers, the poorest of the poor.

-The Cape Town Commitment II-D-4

## CALLS TO ACTION

### KNOW

Know your city. We can only love that which we know and understand.

### UNITE

Unite the church in your city by building intercultural and interdenominational relationships.

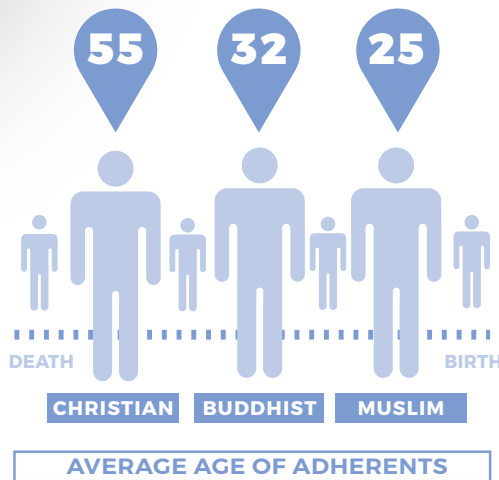

### CONVENE

Convene the body of Christ into strategic gatherings for prayer and collaboration.

### ADDRESS

Address today's urban issues through collaborative partnerships which foster citywide transformation.

The church is quickly losing its urban relevancy simply due to an age gap. On average, Christians are twice the age of their religious counterparts.

## GROWING COMMUNITIES DEMAND UNIFIED MINISTRIES

The vibrancy of the gospel in a city is in proportion to the unity of the church in that same city

Christian leaders that work together better engage their cities

God displays his glory through the unity of His people
